

INGENIERÍA CREATIVA PITA

OUR VOCATION AT YOUR SERVICE

An engineering firm that is dedicated to civil engineering projects and consulting

Specialists in marine works and singular structures

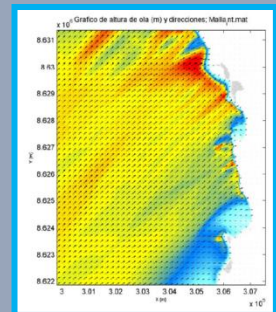

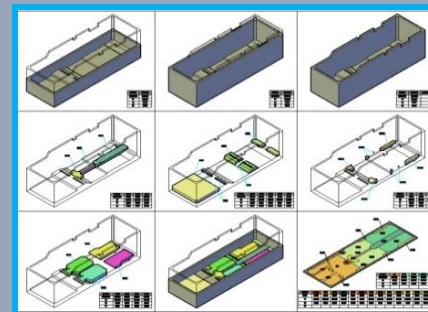

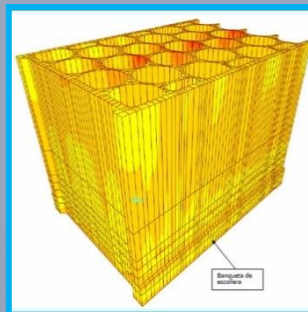

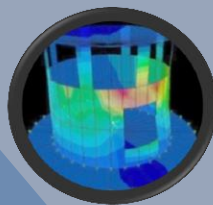

Offering solutions for each step in the completion of a construction job

ABOUT US

INGENIERÍA CREATIVA PITA (INCREA) is a Spanish consulting firm of great international prestige which operates as an engineering company that specialises in the marine environment. INCREA has truly great professionals on its staff who are on the cutting edge of technology in their field in addition to extensive experience and an excellent reputation. We are ready to serve you!

FIELDS OF BUSINESS

Ports and port terminals

Concrete caissons

Singular structures

Geotechnics

Sea energy

Environmental impact

Underwater pipelines

Marine intakes

Pipeline hydraulics

Pump stations

Marine numerical models

Offshore energy

We are known for offering our clients services in all phases of the process of creating and building a civil engineering project as we provide solutions and a service as complete as possible which includes planning, studying alternatives, preliminary designs and project development with all of the unique details involved and even studying the construction processes.

A DEEPLY-ROOTED VOCATION

INCREA employs engineers with great vocation and extensive experience as sector professionals. The Director's more than 25 years of experience in the field of marine works and a great work team that has been together for more than 10 years makes it possible to ensure great service, thus meeting society's requirements related to the interesting field of coastal infrastructures.

CORPORATE VALUES

Each member of INCREA works daily to reach the corporate objectives, which are reflected in these concepts:

Technical capability

Reliability

Committment

Rigour

Honesty

Responsibility

Prestige

Teamwork

Experience

Quality

Towards Excellence

INCREA is constantly working under the aim of attaining excellence and, thus, combines its great technical capability with extreme commitment and honesty.

But we can't do it alone. We need to learn from each and every one of the people who are on this professional journey with us.

We need your contributions to improve!
